Knowledge · Practical Skills · Workplace Experience

The QCTO curriculum consists of three components (**Knowledge, Practical Skills, and Workplace Experience**). This ensures that the students grow in knowledge of the Word of God, put the Word into practice, and engage ministry in actual church environments.

OUR GOAL - 3 DIMENSIONS

Academic Performance (Head):

At DBC, both facilitators (lecturers) and students are firmly grounded in the Word of God, thus learning how to handle Scripture correctly. This is considered the primary task for everyone who is called to full-time ministry including lay workers who assist in the church. This is necessary for the spiritual growth of every Christian. **(2 Tim. 2:15)**

CHAPEL & DEVOTION

Practical Skills (Hands):

The knowledge of God equips the saints for Christian service – for God and for others. This ensures that the Word of God is put into practice. As such, students at DBC will engage in practical ministry both and in the local church, and on an organised mission trip. **(2 Tim. 3:16-17)**

MISSION TRIP & OUTREACH

Christian Character (Heart):

DBC's emphasis is not only on the head and the hands, but also on the heart - a heart for the lost and a heart that displays the fruit of the Spirit. Students at DBC are encouraged to work with others, participate in the chapel and devotions, exercise humility, and seek counsel to grow. **(Gal. 5:22-23)**
